*"I have enjoyed a long term relationship with Mike and his team. Since I relocated to this area 30 years ago we have worked together on many successful projects thanks to him and his team's skill & ability to get projects approved. I have always found them to be very professional, informed as to the issues relating to my projects and prepared when it came to presentations to boards, planning commissions and councils. They work well with the other outside professionals on my team and Mike is truly a team player. I highly recommend his firm and am convinced there are projects I would not have completed without their involvement. "- Ron Skarke, 7-11*
